

G-Shirt Order Form

Focus the Nation is partnering with E3 EarthWear to launch the "G-Shirt" - the Greenest T-Shirt. Our Certified 100% Organic Cotton EarthWear shirts are made in the U.S.A. and printed with Non-PVC, REHANCE(r) Apparel Technology by a local American sustainable print company.

The partnership between E3 EarthWear and Focus the Nation was developed to help your local campus or community organization raise money while staying true to the principles of sustainability. We provide you with a majority profit share per shirt to build your local economy and help with the costs associated with the event.
